We are KPMG

My name is Ricci, I joined KPMG China in 2006. I am an Assistant Manager in the Tax division, and I've been very fortunate to live a good life.

However, this does not mean that I can ignore the underprivileged within my society. There are still a lot of people that needs our support.

For years, KPMG has partnered with the Society for Community Organization (SoCO) to make a difference in the lives of the underprivileged of Hong Kong. Our people volunteer to spend time with children of disadvantaged immigrant families, and help them to empower themselves and improve their quality of life. Through participation with SoCO, they are able to broaden their horizons and look forward to a better future.

For me, I enjoy spending every Saturday with these kids, as they have become an important part of my life. I am happy that I was able to get involved with SoCO, and I work at an organization that is so dedicated to the community. Society has given me so much, and KPMG China has opened the door for me to give to others.

Our partnership with SoCO is only one of the many Corporate Social Responsibility initiatives in KPMG China. Can you see yourself at KPMG?
